

IRB Closure

Multiple Clients

Company Overview

[Pearl Pathways](#) is obsessed with accelerating life science product development for our clients. We are an extension of our clients' teams. We partner with the clinical team, in-house regulatory experts, the quality compliance specialists, the quality auditors, and the senior leadership team to get life saving diagnostics and therapeutics on the market sooner. Our talented staff is focused on getting critical research done, ensuring high quality and efficient manufacturing of products, accelerating global product registrations, and keeping our clients up to date on current regulatory and quality compliance best practices for life science product development.

[Pearl IRB](#): Protecting human subjects and driving improved value and efficiency in protocol reviews and study implementation

[Pearl ReGXP](#): Providing regulatory & quality consulting, and auditing services

[Pearl IDEAS](#): Offering strategic product development assistance through our life science consulting practice

Situation:

An independent institutional review board (IRB) notified their clients that they would be closing their doors in a two-week time frame. All studies overseen by this IRB would need to be reviewed by another IRB or be closed. Over 40 clients reached out to Pearl IRB asking for assistance with clinical study reviews.

Solution:

Pearl IRB was able to review and transfer oversight of all the clinical studies before study closure became necessary.

Result:

Numerous clients are satisfied with Pearl IRB services and have submitted multiple additional studies for IRB review. Stay tuned and come back for more!
